To Whom It May Concern:

It gives me great pleasure to write this letter of recommendation for Architect Steven C. Habeeb, AIA, Habeeb and Associates, Architects, Inc., Norwell, Massachusetts.

Steven and his staff did an outstanding job preparing the Preliminary Analysis of Space Needs and Physical Conditions Report for the Rockland Public Schools. Although this report was a preliminary "first step" in the Strategic Planning Facilities Committee's work, Steven and his staff gave this project the same professional attention and dedication to detail that might be required in a major building project. We were all impressed with the quality of the report and his willingness to provide additional assistance well above the call of duty.

The Facilities Committee was pleased with Habeeb and Associates' detailed report and the suggestions for improvement. In fact, the Rockland School Committee has already approved some of his recommendations.

Therefore, I give my highest recommendation to Steven C. Habeeb, Habeeb and Associates, Inc., for any architectural project under consideration in your school system or business.

Sincerely,

Dr. William G. Compton
Superintendent of Schools
