Re: Reference for Habeeb & Associates, Architects

I have had the pleasure of working with Habeeb & Associates in three different school districts for over a dozen years. This has included projects both large and small, and very comprehensive surveys/engineering studies of school department facilities.

They are headed up by their Principal, Mr. Steven Habeeb who sets the tone for professionalism, knowledge, experience, integrity, and a very thorough understanding of school systems and how we operate. Steve is not satisfied until the customer is satisfied, and he assures that in every job. I find the entire staff to be reflective of Mr. Habeeb's philosophy.

One of the things I find most impressive is that Steve takes an active role in each and every project. Whether it be big or small, you will always know that Steve will have an active part and you will actually see and speak with him regularly.

I highly recommend Habeeb & Associates to any organization needing architectural and engineering related services. Feel free to contact me.

A handwritten signature in blue ink, reading "Patrick W. Meagher". The signature is fluid and cursive, with a long horizontal line extending to the right.
